Follow the discussions on **twitter!** #AIMGA2018

AGENDA

Quality of Care, how to measure it, how to link quality to financing, how to use data analysis to measure quality, how to involve patients in defining quality and how to deal with transparency of quality information. Should everybody have insight in the (detailed) performance of a hospital, or even an individual specialist?

1. **Welcome and opening**  
*Loek Caubo, Vice-President of AIM*
2. **Quality of Care: Insights from Germany**  
*Alexander Geissler, Research associate at the University TU Berlin, Germany*
3. **Quality of Care: What do hospitals do to measure and improve quality?**  
*Dr Joost Baert, CEO AZ Klina*  
*Chairman QID-board VIP2 On the development of quality indicators for Flemish hospitals*
4. **Quality of Care: View of the GPs**  
*Dr. Ann van den Bruel, General practitioner in 'de Wijkpraktijk' Antwerp*  
*Associate professor Department of Primary Care Health Sciences, Oxford University & KU Leuven, Belgium*

--- Coffee break ---
