

# #EUHPP LIVE WEBINAR

## Climate Resilience – The Role of the Healthcare Sector

13 MAY 2024, 10.00 – 11.30 CEST, BRUSSELS TIME

Dear colleague,

We invite you to join this #EUHPP Live Webinar.

Climate change is the biggest global health threat in the 21st century. It affects the social and environmental determinants of health and the effectiveness and sustainability of healthcare systems.

Through the event participants will learn about the European Climate Risk Assessment (EUCRA) report of the European Environmental Agency. More specifically, they will hear about its findings regarding health and health systems. They will also be able to discuss the role and responsibility of different actors of the healthcare system in climate change mitigation and adaptation.

Supporting documents:
